

## **Banyan Tree Tuition Group**

Thanks very much to all who continue to support our Tuition Groups in Kerala even although we do not meet physically at church. The March acknowledgement certificate for £235.00 indicates terrific church support for this life changing work. A record of the local targets achieved last year with your help is available on the SFHHI (Strathaven Supporters of Health Help International) Review of 2020, available on our website.

The international newsletter "Tidings" for April 2021 published by HHI headquarters in Newport Wales, with an interesting request to all our supporters "**we are discussing the possibility of setting up a *Zoom* meeting accessible to supporters. What do you think? One huge advantage would be that supporters from Strathaven, North and South Wales, together with other areas of the UK (and the world!) will be able to share in one celebration. Can you let us know if you think this is something you would like to support? We would need your contact information (email address, preferably)**" the April edition of Tidings is available on their website.

Local information can be found on our website:- [www.sfhhi.org.uk](http://www.sfhhi.org.uk) and international information on [www.hhi.org.uk](http://www.hhi.org.uk)

Thanks to everyone who has found a way to make their donations.

Ian Gow
