

# Hand Painted Leaf Cards

Many of you will be familiar with the leaf cards that we have been selling on behalf of the ladies in India who support their families by hand painting greeting cards. In these difficult times your support is needed more than ever as sales in India have fallen considerably as there are no tourists. At SFHHI we have been selling the cards on line and over the past year more than 940 cards were sold; we want to do better than that in 2021.

There are over 30 designs available with lots of flowers, birds and butterflies. There are some Strathaven scenes, Indian scenes and the ever popular Thistle. All the greetings cards are blank inside for you to write your own message. It is very easy to purchase these cards from the online shop on our website:- [www.sfhhi.org.uk](http://www.sfhhi.org.uk)
