Mindfully read this & meditate on it

Looking at Acts Chapter 2 last Sunday we, as a church, are here today because of the faith and actions of the early church. We have to ask ourselves, "how are we engaging in the the things that they engaged in?" The Church today lives and dies by its people and their connection with the living God. How are you engaging? How are **YOU** connecting , challenging and cultivating? Listen to last Sundays service and use the slides below to consider your response.

•Rule of life for a healthy church

- Biblically based
- Fellowship focused
- Whole-hearted worship
- Missional mindset

Commitment to word

"The word of God is alive and active." Do you have a set time for bible reading? Do you have the right tools to help you read in a structured way? Are there any steps you can take to help yourself in this area?

Commitment to fellowship

Isolation is simple and effortless, fellowship requires effort. Are you engaged in active fellowship? Are there people that God is guiding you towards?
Galatians 6:2 Carry one another's burdens and in this way you will fulfil the law of Christ.

Commitment to worship

How often do you attend worship? Have you tried different forms such as Ignite, Take time and mid week prayer?

Commitment to mission

The missional mindset says to God 'I am yours, use me as your vessel to share your love with neighbours, friends and family, on the streets, at my work and in my home.'
The missional mindset refuses to be content with the status quo and longs to see new people added to our number.

God's commitment to you

"But God demonstrates his own love for us in this: while we were still sinners, Christ died for us."
Reflect on those words and God's devotion towards you found in Jesus. Let that be your primary motivation
